1. Flowchart

2. Analisis Program

2.1 Deskripsi Singkat Program

Program ini dibuat menggunakan bahasa pemrograman C++ tujuan dari Program ini untuk mengelola dan menampilkan data batik dalam sebuah toko yang saya beri nama "Toko Batik Nusantara". di program ini memiliki dua User yaitu Admin (Wina Okta Ramadhani) dan Pengguna sebagai sample (Syalomitha Novindriani Depe).

3. Source Code

```
#include <iostream>
#include <string>
using namespace std;
#define MAX_USERS 100
#define MAX BATIK 100
struct User {
   string username;
   string password;
   string role; // "admin" atau "user"
};
struct Batik {
  string name;
   string origin;
   string category;
   string price;
};
User users[MAX_USERS] = {
   {"Wina Okta Ramadhani", "2409106100", "admin"},
   {"Syalomitha Novindriani Depe", "2409106098", "user"}
int userCount = 2;
Batik batiks[MAX BATIK];
